SEPTEMBER 2024

#LOVE FOR
MEXICO

World Patient's Day

September 17 has a global focus on the importance of ensuring that health services are safe, quality and accessible, as well as raising awareness about the need to reduce risks to patients within health systems.

On this day, we seek to raise awareness among society, health professionals and institutions about the need to implement safe and quality practices that protect patients.

At UBGA we join the cause by promoting the participation of its patients in activities with workshops, talks and informative materials on patient rights and best practices for safe and quality care.
