With your support
we will go further.

Message from the Board of Directors

Dear beneficiaries, collaborators, allies, and donors:

With deep pride and gratitude, we present our **2024 Annual Report**, a reflection of a year of shared efforts, challenges overcome, and lives transformed.

Throughout the year, we reaffirmed our commitment to bringing free medical care to the most vulnerable communities through humanitarian programs that not only provide immediate care but also generate a sustainable impact on the health and well-being of thousands of people.

The Free Medical Care Days (JAMG), Child Health Days (JSI), and JAMG with Mammography, which we carried out through mobile medical units, brought quality medical care to those who need it most, guaranteeing timely diagnoses and comprehensive treatment at the primary care level. At the same time, the **Health Promotion Program** strengthened education on healthy habits, promoting prevention as a key pillar. Through the **Healthcare Support Management Program**, we provide orthoses, significantly improving the quality of life of patients and their families.

Our response and adaptability are put to the test in critical moments, such as natural disasters. A clear example of this is our intervention in the communities affected by the devastating Hurricane Otis, where we provided immediate lifesaving assistance and continued to be present even after the emergency phase.

None of this would be possible without the unwavering support of our donors, volunteers, and allies. Their trust and solidarity allow us to continue moving forward with **#LoveForMexico, #AppreciationOfLife, #SelfEducation, and #SelfEsteem**.

On behalf of UBGA, **ithank you!** for being part of this effort. Let's continue working together to build a healthier and more hopeful future for all. With gratitude,

Francisco

President of the Board

Objectives

- Carry out activities aimed at implementing cooperation programs for **community development**.
- Conduct actions to provide **health services, medical assistance, and support instruments** for the care of socially disadvantaged groups, individuals with disabilities, and other people in **vulnerable situations**.
- Undertake actions focused on social guidance, **job training, and the promotion of self-employment**.
- Implement initiatives that encourage **self-employment**.

Goals **2024**

We successfully served **137 municipalities** across the Mexican Republic, directly **benefiting 181,617** individuals and supporting more than **22 families** through the provision of orthotic devices.

SUSTAINABLE DEVELOPMENT GOALS

All our programs are founded on the achievement of the United Nations' first Sustainable Development Goal: the eradication of poverty.

The UBGA Social programs are aligned with the achievement of the third goal: Good Health and Well-Being. Our programs in this area include the Free Medical Care Campaigns and the Health Promotion Program — Joining Efforts.

Meanwhile, the UBGA Economic programs are aligned with the fourth goal: Quality Education. These programs include: I Employ Myself, Generating Synergies, Productive Assistance, Observe, Learn, and Act, and Life Opportunities.
